Update on 41 -47 Throsby Street development

- Petition gathered 162 signatures objecting to the building and height proposed and was presented to Council - a big thank you to all those who signed the petition.

12/4/22 - Kirsten gave a Public Briefing Presentation to CN on Furlong Lane Planning Proposal.

21/4/22 - CN confirmed the DA must have:

- Reduced building height from 22m to 14m on most of the Village Hub area.
- Confirmation that the street setback will be 2m, not 0m as it is in the east end of Throsby Street. This means all other developments west of Union Street will also need to comply with the DCP setback of 2m giving the feeling of opening up as we walk toward Wickham Park.
- Confirmation the CN DA assessors will also enforce all the other setbacks in the Draft DCP 6.03, Wickham, and the Apartment Design Guide.
- Confirmation that the only footpath crossing on Throsby Street is the laneway. The original concept design had a driveway with inadequate sightlines.
- Confirmation that waste collection will be on Furlong Lane.

26/4/22 - CN endorsed the Planning Proposal and Planning Agreement - 8 in favor / 5 against.

- **GLOW will now focus on making the DA as suitable as can be within these changes -**
